

INTRINSICALLY-SAFE TORCH

Ega Master manufactures a wide range of **intrinsically safe tools for use in hazardous areas**. Among them we can find the lighting range where stands out the MasterEx LED torch.

10 hours of continuous work with 3 AAA alkaline batteries, projecting an **illumination of 60 lumens**.

Its **powerful LED** makes it the ideal torch for the most hazardous gas/dust areas, **up to Zone 0/20**, when high illumination is required.

It is the ideal combination of **maximum safety, powerful illumination and cost-effectiveness**.
